PUBLICATIONS

ANON: A Generalised Framework for Tooling — ANON 2024 — ANON, Greece May 2024

- Proposed a pipeline for ANON usage, achieving a 20% improvement over current SoTA benchmarks like ANON and ANON.
- Employed ANON techniques to fine-tune models, reducing computational costs by 30%, optimizing resource usage.
- Developed synthetic datasets for diverse scenarios, increasing model adaptability by 15% after fine-tuning.

INTERSHIPS

Data Science Intern — ANON — Bengaluru Jul 2024 - Present

- Developed an ANON model to estimate demand volume, enhancing forecasting capabilities.
- Achieved a 15% reduction in ANON Error through advanced optimization techniques.
- Improved operational efficiency, resulting in a 5% reduction in ANON consumption.

Data Engineer — ANON — San Francisco Jul 2024 - Present

- Created a dataset of size 100,000 to fine-tune models for solving complex problems.
- Implemented preprocessing techniques, increasing model accuracy by filtering irrelevant data.
- Automated pipelines, reducing total preparation time and enabling faster iterations.

Research Intern — ANON — Bengaluru Jan 2024 - Mar 2024

- Published the paper "ANON: A Generalised Framework for Tooling," detailing a pipeline for ANON application.
- Developed an agent for ANON, successfully merging an approved PR into the repository.
- Conducted experiments achieving a 25% latency reduction using quantization methods.

Machine Learning Engineer — ANON — Bengaluru Dec 2022 - Jan 2024

- Implemented robust ML systems leveraging Python libraries for ANON tasks.
- Fine-tuned models such as ANON and ANON to meet client-specific goals.
- Applied pre-trained models for tasks like classification and segmentation.

PROJECTS

Research Intern — ANON — ANON Jun 2023 - Oct 2023

- Conducted comprehensive analysis leveraging techniques to assess risks effectively.
- Developed architectures to create models capable of extracting insights.
- Enhanced rating models by integrating calculated factors.

Intern — ANON — Mumbai May 2023 - Jun 2023

- Developed a model with 97% F1 score for preserved texts, focusing on ANON.
- Implemented bounding box generation, enhancing accuracy of segmentation.
- Identified 92% characters in the "ANON" dataset.

ANON: An AI-powered Chat Bot — Self Project Feb 2024

- Developed ANON using quantized ANON models. Scraped data to create databases.
- Designed and deployed an app to showcase ANON, ensuring seamless interaction.

COMPETITION/CONFERENCE

ANON Campus Challenge 2024 May 2024 - Present

- Ranked top 10 among teams in Round 1 by achieving 72% accuracy using models.

ANON's AI Agent: Tooling Up for Success Nov 2023 - Jan 2024

- Ranked 1st among teams, developing a novel method transforming selection into completion.

AWARDS AND ACHIEVEMENTS

- Recognized by ANON for contributions and insights shared within the community.
- Qualified for ANON Olympiad in 2017-18, demonstrating aptitude.
- Cleared the ANON Examination in 2017-18, showcasing abilities and prowess.
- Secured gold in Open ANON 2024 with a project focused on analysis.

POSITIONS OF RESPONSIBILITY

Executive Head — ANON Group Jul 2023 - Jun 2024

- Organized ANON Hackathon 2024, increasing registrations significantly.
- Conducted a Bootcamp, attracting participants, including international ones.
